

School days countdown!

Preparedness tip #4

Does your child know what to do if he or she sees another child being picked on, ignored, or just feeling left out? Something as simple as a “Hi, my name’s _____” may be all that’s needed to make a difference in the other child’s day. Simple role playing games at home can be an effective way to **teach your children empathy and greater**

awareness of those around them. Try it!
